Sea Shanty Sing-Along, online workshop 2020

- Sea shanty discussion and performance workshop for Santa Clara County Library District

Storytelling Through Music, World Fantasy Convention 2018

- Panel description: Stories have long been set to music. Whether a song has been written to accompany words or used to inspire a scene, panelists discuss how music impacts their stories. Copanelists: Deanna Sjolander (M), Linda Robertson, and L. E. Modesitt Jr.

Calamity Jane Defeats Conan: the Persistence of American Folklore in Fantasy Literature,

World Fantasy Convention 2017

- Panel description: English language fantasy literature traditionally draws heavily on European history, mythology and folklore. Many contemporary writers have worked to integrate the myths and literatures of non-European cultures and other underrepresented groups. But little attention has been given to the strong and persistent threads of American folklore running through our fantastic literature -- and how antebellum tales of frontier women, backwoodsmen, Yankee peddlers, myriad American tricksters and other popular archetypes inform contemporary fantasy narratives by North Americans. Some historical people lend themselves to becoming fantasy characters more than others. We can imagine Abe Lincoln killing Vampires, JFK surviving to help Elvis fight mummies, even Davy Crockett riding on a comet (a popular folk tale in the mid 1800s). What are the qualities which make such a hero so compelling in the transition between reality and fantasy? Copanelists: Christopher Brown (M), Stephanie Feldman, and Steve Saffel.
